What can Inavero do to increase the value that you receive from their services (i.e. reports, data analysis, contact management, etc).

---

10 Respondent Information Withheld It would be great if the loyalty index system could somehow connect via APIs or if it was an ASP.

---

10 Respondent Information Withheld Can't think of anything

---

10 Respondent Information Withheld If the comments were not anonymous it would help us to improve our service

---

10 Respondent Information Withheld Provide at least one printed bound report for each survey results.

---

10 Respondent Information Withheld Nothing comes to mind.

---

10 Respondent Information Withheld I feel that Inavero provides a great deal of value already, but if I had to add something I would like to see a dashboard of results as we go through surveying. For instance, if I'm the project manager on the client side, I'd like to see the progress so far in terms of number of responses, response rate, some very raw findings.

10	Respondent Information Withheld	I'm a closet techie, so being able to login realtime and peak at data as it is coming in would be cool. Otherwise, making sure the links work when they go out... we've had a couple of instances of trouble with that.
10	Respondent Information Withheld	No response provided.
10	Respondent Information Withheld	Perhaps additional industry comparative data for the individual divisions that participated (i.e. Statistics for the Accounting and Finance Staffing niche).
10	Respondent Information Withheld	No response provided.
10	Respondent Information Withheld	Nothing else, so far so good.
10	Respondent Information Withheld	I would be open to hearing about what other survey's or ideas we might consider when evaluating our customer loyalty. In other words, is there anything else we can do to enhance the experience with our customers...

10	Respondent Information Withheld	It would be great to see a link on the ASA website that would connect to a list of Inavero award winning companies. It seems like a win-win...more exposure for Inavero and an opportunity for companies like [Removed] to get further value from your services.
10	Respondent Information Withheld	For our company specifically, it would be helpful to have the ability to adjust some quesitons for niche staffing areas (i.e. security staffing, executive search).
10	Respondent Information Withheld	No response provided.
10	Respondent Information Withheld	nothing I can think of at this point.
10	Respondent Information Withheld	Maybe some follow up after the survey results come out.
10	Respondent Information Withheld	reduce price

10	Respondent Information Withheld	Absolutely nothing. Inavero has been very responsive to our company's needs.
10	Respondent Information Withheld	Maybe consider some joint advertising.
10	Respondent Information Withheld	I don't have any suggestions as it was all outstanding. In my opinion you are doing it all perfectly.
10	Respondent Information Withheld	Right now I have everything that I can think of to help me get out in the field and meet with customer's. If I run across something else that I need I will call and I am sure they will help.
10	Respondent Information Withheld	Would love an "audit" by inavero - meeting with our management/owners to go through the process we are using and help us streamline and be more effective with our clients/candidates. I think this should be part of the quarterly fee and then happen every 12 - 18 months. Report with a ranking with similar companies (ie: tech recruiters, etc) of where you are ... not just the score.
10	Respondent Information Withheld	Reporting. As our NPS program matures, we are looking for ways to tie the NPS scores with our revenue. There is little information on this subject.

8	Respondent Information Withheld	survey delivery timing was stretched too long; final product was not "market ready"...may have been that my expectations of the final documents were not what Inavero thought was to be delivered.
7	Respondent Information Withheld	Reports can be a little more intuitive.
7	Respondent Information Withheld	Lower the cost of the survey
6	Respondent Information Withheld	Your service is really great - Maybe add some phone calls to make it more personal>
