

How Will You Benefit from Inavero's NPS[®] Benchmark Report?

BENCHMARK YOUR COMPANY AGAINST THE COMPETITION

Compare your firm's performance by practice area and revenue group while stacking up your firm's satisfaction scores against Inavero's Best of Staffing™ winner results and some of the best companies outside of your industry. Get access to exclusive industry benchmark data only available through Inavero.

EASILY IDENTIFY WHAT TO FOCUS ON

A satisfaction survey with multiple segments (offices, practice area, etc.) generates a lot of data and can be challenging to quickly determine where to focus. This report will aggregate your survey data and tell you where to focus your attention to optimize service improvement.

QUICKLY SHARE SURVEY RESULTS ACROSS TEAMS

Sharing this high level report across teams is quicker (and in some cases easier) than giving your employees access into MyInavero to read individual feedback to determine those action items. Consolidate those efforts, then as information is shared each team can begin to create their action plan.
